CHAT CODEX ...

CREATE COLLECTION MCP_MONGODB

Checked terminal output

Execution is still in progress and hasn't returned output yet; I'm waiting for the terminal completion notification to report the exact drop status.

Collection drop command has been issued and is currently running.

I'm waiting on terminal completion to confirm whether MCP_MONGODB was DROPPED or NOT_FOUND and to return the updated collection list.

Created 2 todos

python -c "from pymongo import MongoClient; uri='mongodbsrv://dinesh6555_db_w... completed

Drop completed successfully.

- Status: DROPPED
- Verification: COLLECTIONS []

MongoDatabase.MCP_MongoDB has been removed.

CHAT CODEX

CREATE COLLECTION MCP_MONGODB

The command is still running in the background, so I'm fetching its output now to capture the database list.

Checked terminal output

No output has been produced yet, so I'm doing one more status check; if it is still pending, I'll rerun with stricter connection timeouts and return the result/error immediately.

d:/AssignmentImplementation/.vscode/scripts/python.exe
C:\from pymongo import MongoClient
